## Are You Ruptured?

If so, have you given up all hope of ever being cured? You have tried many kinds of trusses and failed. Let me tell you what the trouble was. The Truss you have worn had a convex surface, like this, but before the concave invention of Dr. J. D. Rowley, no one had thought of constructing a pad thus ( ). This, reader, is the whole secret; it will hold your rupture, no matter what position you may assume--sneezing, cough or run--you can't get it out of place. No matter where you are ruptured--man, woman or child, it will give you relief from the start, and will not cost you a fancy price, and your money refunded if it is not "O. K." This is as fair a statement as one could ask for. If you go on and suffer it means that you are too poor and don't care about your health, or else that you are too proud to get relief from the start, and will not cost you a fancy price, and your money refunded if it is not "O.
